INA-GL Pvt. Ltd. was established in 1995 to engage in the distribution of various types of industrial tools and equipment, supplying high quality products to esteemed well established companies across India. With 5 years of experience, catering to the world, exporting to other countries in the Middle East, South East Asia & Austria. INA-GL takes pride as one of the leading Engineering products Supplier Company in India, providing expertise with our team through knowledge, delivering an unmatched service to ever demanding engineering industry. Our main goal is to develop good business relationships with our clients, with that, our products are competitively priced and to assist them even further an after service department consisting of a highly qualified technical team will be providing them world class support.

about us

We have successfully catered to the stringent requirements of various large, medium and small industries for the past 10 years. To keep pace with the changing requirements of this industry we have upgraded our plant equipment and processes to provide you with excellent quality packaging solutions at reasonable prices.

Every activity in the manufacturing process from decoying with support of EOT cranes, usage of fully automatic seam welder to customized painting in closed chambers, is closely monitored for standardizing and maintaining strict quality controls to ensure you get the best drums and barrels available, to deliver your valuable products.

International Customer Base

We have an international base of clients in the Middle East, South East Asia & Australia spread across various industry segments like Petrochemical, Lubricants, Chemicals, Adhesives, Oleoresins, Paints and Thinners, Food based industries, Pharmaceuticals, Ayurvedic ingredients etc.

Film-Zr mainly contain with VCI (vapor corrosion inhibitors) products.VCIs are often used in situations where it is impractical or undesired to use rust preventative liquids or other surface treatments.

The substances that slowly release a corrosion preventative compound into a sealed air space, effectively protecting exposed metal surfaces. These VCI products come in different products, which allow you to find the best solution to your rust problem. These product lines consist of: corrosion inhibiting films, VCI tarpaulin, VCI antioxidant, air bubbles and aluminum barrier.
